Erwann Labit

Looking for an internship

First-year student at ENSEEIHT, a French engineering school in Toulouse, specializing in Electronics, Electrical Engineering and Automatic Control (3EA). Seeking a 2- to 3-month internship (second year of the engineering program) in embedded systems for the aerospace industry.

Education

Engineering school
Since Sept. 2026 ENSEEIHT Toulouse, France
Department of Electronics, Electrical Energy and Control Systems (3EA)

CPGE (Preparatory Classes for Engineering Schools), PCSI-PSI fields
From 2024 to 2026 Lycée Déodat de Sévérac Toulouse, France

French Baccalaureate
From 2022 to 2024 Lycée Saint Joseph - La Salle Toulouse, France
Specialties: Mathematics and Physics-Chemistry
Third specialty: Engineering Sciences
Option: Advanced Mathematics
With high honors

Aeronautical Initiation Certificate (BIA – Brevet d'Initiation Aéronautique)
2022 Lycée Saint Joseph - La Salle Toulouse, France
With high honors

Professional Experience and Projects

Design and Study of an Electromechanical Siren
From Jan. 2025 to Jun. 2026 Lycée Déodat de Séverac Toulouse
Project carried out for the TIPE, part of the competitive entrance exams for French engineering schools after CPGE.

Observation Internship in the Motion of Anthropomorphic Systems team
Dec. 2020 LAAS-CNRS Toulouse
Completed as part of the final year of middle-school job shadowing placement. First exposure to a research laboratory.
